- 2.5. **The broadband internet links have a 10% bandwidth warranty** and they don't have public IP's. If a **public IP** is necessary, a FULL link must be hired;
- 2.6. **Every hired service will be delivered at one single point**, pointed out by the **EXHIBITOR**, inside each area. A map of the stand specifying this point must be delivered by the **EXHIBITOR** to **LINK SOLUTION**, at the time of the order. **If there is no definition by the EXHIBITOR, our technical department will find a appropriate point to deliver the cable. Internal cabling is the EXHIBITOR's responsibility.** In case of Wi-Fi services, **LINK SOLUTION** won't be held responsible for signal quality loss when equipment are installed inside closed recipients (rooms, lockers) or installed near other equipment that work on the same frequency (microwave oven, 2.4Ghz cordless phone).
- 2.7. The **EXHIBITOR** must provide every infrastructure necessary (installation point, outlet when necessary) for the well functioning of **LINK SOLUTION's** equipment;
- 2.8. **Cancellations or alterations** in orders will only be accepted until 48 hours from the installation date, IF no service has been initiated by **LINK SOLUTION** (ex: cabling). After this period, the **EXHIBITOR** won't have the right for a full refund on previously paid services. Refunds will suffer a 20% fine over the total amount paid;
- 2.9. If certain application has a special need (Ex: VPN or destiny IP), **LINK SOLUTION** must be noticed at the time of the order. If such notice is given later, a fee of R\$ 50,00 will be charged for the reconfiguration;
